

object

`pip._vendor.urllib3.packages.backports.weakref
_finalize.weakref_finalize`

```
graph BT; A["pip._vendor.urllib3.packages.backports.weakref  
_finalize.weakref_finalize"] --> B["object"]
```

The diagram illustrates a reference relationship. A blue arrow points from a gray rectangular box at the bottom to a white rectangular box at the top. The gray box contains the module path `pip._vendor.urllib3.packages.backports.weakref_finalize.weakref_finalize`, and the white box contains the word `object`.
